## Customer Reviews

Great resource! The book explains everything, from the pure mechanics to the trading methodology. It has CherryTree Style approach which means clear, organized, straight to the point without unnecessary repetition. I would recommend this book to anyone who wants to make money on forex. Though I can't benefit from this book since I am not a risk taker. I just get this because I collecting some knowledge about investments. I think excellent introduction to the discipline of forex investment. Overall I think this book deserves a 5-stars compliment.

I wanted to try investing into forex that is why i got this book. This book has provided all the necessary information that i need to know to get started with it. The forex market is becoming popular nowadays and its handy that i become familiar with it. And i would like to start making a profit from actively trading in forex markets. To do this effectively i need to understand a number of basic forex concepts that this book can offer.

Such a worthy book the author has introduced about forex trading, day trading. The author has so brilliantly written this book in an organized way. There is given more information about currency trading with suitable strategies. These strategies helps in getting passive income, profits. This guide book helps me a lot about forex trading and told the criteria of availing opportunity. Recommended to all!

For business oriented people, one of the things that catch their eye is Forex. But for someone like me who is afraid of business and money matters, this book is a challenge. I decided to engage myself into this field because I need to accept that business is everywhere, and it is an advantage to be open about it. Upon reading it, it gave me a wider perception about how money should be

managed.

This is an interesting read, I learn candlesticks pattern complete and price action in this book. I happy to learn this because when I apply these techniques on my demo account I saw its work. The book has detail about candlesticks pattern name of candles and complete detail of price action also other topics are available but my focus on just two topics thanks.

This book provides great insight on how to find your way in a maximum trading. The author pretty much sums this challenging but very opportunity, the world is what you need to know to start trading in forex the right way. He is true to the fact and deal not with the effort and strategies to consider it before starting to make money. Very well written.

As a beginner at this, I really have no idea what to do and how forex trading works. A friend of mine introduced me to this book and I think it is really helpful. Being wise with your investment and analyzing how it works. The book gave good discussions that will help me with my decision making about business stuffs.

Technical Analysts take the first attention and much more importance when it comes to making the proper move in Forex Charting before progressing in the Advanced stages. This book will also help the beginners, to grasp the basic Forex concept and the new ways of using the cherrytree style
