Customer Reviews

this book has everything any sax player could want. this is an easy and great way to practice getting those technical, fundamental exercises out of the way with celerity. all keys written out, just rip through and soon the book may be put aside.

This book features a lot of good exercises for the saxophone, but the print is a little hard to read - rather dark and thick. My daughter is using it for her private lessons and complains that the notes seems too close together. Still, the exercises and scales are excellent, and her teacher is a big fan of these Daily Studies books.

I thought this was a begging rs book learn to playing the practices to up grade there playing.

Wromg. You have best know to read complicated musical notes. They are more for the intermediate or pro. My daughter is just a new student and THIS IS NOT FOR A BEGINNER. ..

Great for warm ups, scales, arpeggios, and other study bits.

Arrived earlier than expected!! Thanks again!
