Hot Pursuit: A Hostile Operations Team Novel, Volume 1

Synopsis

He was the last man in the world she wanted to see. But he might be the only one who could save her. Ten years ago, Matt Girard did something he shouldn't have. When sweet Evangeline Baker offered him her virginity, he took it. Then he left town and he's never looked back. Until now. His future as a black ops soldier with the Hostile Operations Team is in jeopardy, and he's come home for a few days before going back to face the consequences of a mission gone wrong. Matt still makes Evie's heart pound, but she wants nothing to do with him. She's had enough of men who lie and promise things they don't deliver. But when her sister goes missing and her ex-boyfriend turns up dead, she's in need of Matt's special military skills. With time running out, Matt will put everything on the line to protect Evie and find her sister. Even if it means sacrificing all he's worked for with HOT. Sometimes, the reward is worth the price. Especially when it's the one woman he can't forget.

Customer Reviews

HOT PURSUIT by Lynn Raye Harris. If you love romantic suspense and cannot get enough, you might enjoy this. I did not. This was typical characters and done-before-plot and action. There was nothing special or different. If I were to recommend something to the author I would say come up with unusual and special characters. Let the characters' personalities create conflicts instead of having them do illogical things. For example: They have great sex. Afterwards he is cold and insensitive with no explanation. The next time they have great sex, he leaves without a word and does not call her - for four weeks. So he has to apologize. She loves him. He asks her to go with him

to his sisters's wedding. She says no. Later she shows up. They both want to be with each other after the crisis. But when the crisis is over, she says no. HEROINE STUPIDITY: He tells her to stay hidden while he goes after killer thugs. She does not stay hidden. She goes after him because "she wants to help." She has no weapon and no fighting ability. She is a chef. He is a highly trained Army Ranger. This happened three times. When she first tells him about her problem. She does not mention "organized crime" because she didn't like to think about that. CAUTION SPOILER: They are hiding. He sets an alarm for a short nap. She turns off the alarm because she thinks he needs more rest. As a result the bad guys enter and get them. END SPOILER. OTHER: I would have liked more details about the informant, ambush, and escaping in Iraq. I also wanted to know what the authorities did with the information about Rivera; i.e. give me a more complete ending. DATA: Narrative mode: 3rd person.
