Brett: His Own Story

Synopsis

In this newly revised edition, Brett Hull tells his own story and shares his troubles and triumphs. Through all the pressure and controversy that comes with being an NHL great, he strives to stay on top of his game and to maintain an easygoing attitude.

Customer Reviews

I enjoyed parts of this, but it seems like Hull wanted to make sure and not burn any bridges. I would love to have heard him riff on Mike Keenan or any other number of things but alas, this seems like it's the PG rated version of what could be a more interesting book. Still interesting, but not something I'll read again.

Great book. He has always been one of my favorite players. It was a good read. He stuck to telling good hockey stories and didn't get too personal. So if you're looking for party stories, check out the Darren McCarty, Theo Fleury or Bob Probert books. I think it was written a little too early. There were not enough stories about his time in Dallas or Detroit. I'd have liked to read more about that time of

his life.

Brett Hull was a great hockey player. He worked very hard to become a star player. It was very hard growing up the son of a famous hockey player, especially after his parents divorced. I think Brett Hull will be remembered and admired for his goal scoring and records he set on the ice. After reading this book I will remember him for how hard he works and how he never gave up his dream. I would recommend this book to everyone that is a hockey lover. I enjoyed the book and was happy I chose it.

Great history of Brett Hull with good insights to relationships with teammates, coaches, and family. Does not go into family issues in depth but that's OK since that's OT what the book is about.

This is probably the most enjoyable book I have read regarding hockey or hockey players. Brett provides a light-hearted look at his life that is neither boastful nor "preachy". He is surprisingly modest given the extraordinary career he has had. I particularly enjoyed hearing of his days growing up in the shadow of his legendary dad and how he overcame his own personal obstacles. This book could easily have been two or three times as thick but I am guessing Brett would not have enjoyed writing a lengthy tome - and clearly Brett is motivated by fun more than anything else! A great lesson for anyone!
