Must have books. When I finally looked at these I wish I had em a year ago. Bought them all. Even better in ibooks so the music clip is embedded and a mouse or finger click to play. Great riffs and method to learn.

I have been playing years. This is what I have been looking for. I need just iPad, kindlebook and guitar to practice. Audio is included in book. It is so easy to use. Mostly you learn different

strumming patterns from this and some other skills too. Strumming is what I been looking for, it is the most important guitar skill, here it is and It is used for real songs. There are some little examples from songs and whole songs too. Singing part is included too and band is in some examples, which I like very much. It is easy to go and learn whole song for example from youtube. This is teaching some skills and you are learning songs too. I use this for transcribing also and then I see that I got it right. I have many guitar books and this in the best ones there is are. This Kindle is big step from paperbook and cd forward. At the moment there are Acoustic guitar tab method 1 and 2 and Guitar tab method 3 as Kindle. I wish that there will be more as soon as possible.

Very happy with the book, I'm learning to play with a lot more confidence.
