The Complete IDIOT'S Guide To Near-Death Experiences by P.M.H. Atwater with David H. Morgan is a must-have for everyone who is interested in the spiritual aspect of death, as well as in the latest developments of our knowledge of spiritual reality. It can be regarded as a easy-to-read encyclopedia on death and afterlife matters. One account about a near-death experience has been titled "Hold on to Your Socks for This One," and the same title can be applied to many of the other survival stories -- all of them are great reads. At the same time, they are classified in a way that expands our understanding of the afterlife. For instance, the authors analyze the differences of how children describe their journeys beyond in comparison to adults. As children are not conditioned by any religious concepts, in their reports darkness isn't always evil. Many children have reported about "the darkness that knows," describing being cradled in a womb-like darkness. The authors recall that light is not always God's light as well. As we know, word "Lucifer" means "light bearer" to begin with. In other words, our dualistic picture of the universe as a battlefield of light and darkness

doesn't always hold up. Since the 60's researchers have come across cases of survivors who wanted to report the hellish kind of journeys they experienced. Yet for quite a long time these accounts were suppressed because of the belief that only bad people like murderers go to hell. Regrettably, studies don't confirm it. It is still not quite clear why in near-death situations some people like family oriented community activists found themselves in hell and others in heaven. The belief that a near-death experience produces only positive changes -- needs to undergo a profound revision as well.
