## Customer Reviews

My 7 year old loves this book. He is familiar with the Lord of the Rings series and a fan of Minecraft. This was a way to combine the two in something he could read at his level. He ended up reading this book to his 1st grade, which they all enjoyed.

I really liked The Hobbit and this book was very similar but too short and so many big steps. (ex. it took around 10 pages to get to him getting Sting, in The Hobbit it took much more time) Though I am definitely going to get The Mobbit book 2. I suggest it to: fans of Minecraft and The Hobbit and/or

Lord Of The Rings. Also with Minecraft fans who didn't like The Hobbit.

this book was hilarious and you made the hobbit the mobbit but why did you do that HUGE cliffhanger please make book 2 as fast as possible or you shall meet my breath.

This story was very funny and i believe it should have like a side by side with the real book aka the hobbit.the cliff hanger was expected in my opinon othere than the progress precent in the coner but it just seemed like they pushed throught the book a little fast but other then that it was great=)

I rate 5 stars because it is the best Minecraft book I've ever read!!!! It was good because the ender dragon said was going to take his revenge.

I am here to review about steve potter. I was the person who wrote a 5 star review. Since i can't write another review,I will write here steve potteris a shortened version of the sorcerers stone, That matches with minecraft. Some parts are very weird like gamestop. Sorry JK, I I had not read harry potter at that time

this book is awsome and if you like it you should read the book it was made from, The Hobbit. I would definitely recomend this book to any minecraft and/or Hobbit fans.

This book is very great. I loved it so much. U should read this if like the hobbit and/or harry potter. I love all minecraft things but these parodies are my favorite.
