The PowerScore GMAT Critical Reasoning Bible (The PowerScore GMAT Bible Series Book 1)

Synopsis

Written by David M. Killoran; published by PowerScore. The PowerScore GMAT Critical Reasoning Bible will teach you how to break down GMAT argumentation, how to recognize GMAT question types, and how to separate correct answers from incorrect answers. You will improve your accuracy in answering questions and your speed as well. If you are shooting for the highest score possible, the Critical Reasoning Bible will help you maximize your performance. The approaches discussed in the Critical Reasoning Bible are also useful when attacking Reading Comprehension questions. The author has over 20 years experience teaching classes for graduate school admissions tests. An expert in test preparation, he has overseen the preparation of thousands of students and founded two national test preparation companies. Read the acclaim for Dave's other books, The PowerScore LSAT Logical Reasoning Bible and The PowerScore LSAT Logic Games Bible. The Critical Reasoning Bible is also supplemented by an exclusive website that provides additional material for the book, including suggested study plans and answers to frequently asked student questions. Another title from PowerScore's Best Selling Standardized Test Preparation Bible Series

Customer Reviews

==== 2015 UPDATE ==== Powerscore released a new 2015 edition of the book. It has had some updates - several chapters have been completely updated with new overview, examples and new problem sets. Navigation has also been improved. It has grown too by about 70 pages (in part due to having more white space and in part due to content). Not a light book at 370 pages but definitely very very comprehensive overview of pretty much everything. Don't expect to see too much fluff, the book gets right to it. Though after MGMAT has improved their CR book (currently in its 6th edition), I would have given this book 3-4 stars, the latest revision seems to provide a good alternative to the Veritas Prep/MGMAT books.==== 2009 Review ==== Though pretty similar to Manhattan GMAT book, it offers more practice questions in the book and has a slightly better overview of the Critical Reasoning questions.~~~ Strengths: ~~~1. In-depth overview of the Critical Reasoning strategies and approaches to questions2. Clearly divides the CR question types and provides specific strategy for each type as well as the pitfalls and common errors. You will also get to know how the CR questions are made.3. Good quality GMAT-like practice questions4. Created by the authors of the best LSAT books (LSAT logic section is much harder than CR on the GMAT; there is actually a decent amount of overlap in this book with the LSAT book). Speaking of which, for extra hardcore (and absolutely not necessary but still), you can get the PowerScore LR book (comes with quite a few LSAT questions)~~~ Weaknesses: ~~~1.
